AHLA PUBLISHES OPIOID PRESCRIBING: AN AHLA 50 STATE SURVEY WITH SUMMARIES AND LINKS

WASHINGTON, DC (FEBRUARY 4, 2020)—Published by the American Health Lawyers Association (AHLA), *Opioid Prescribing - An AHLA 50 State Survey with Summaries and Links* is an indispensable resource for anyone concerned with state opioid prescribing requirements.

This state law survey provides descriptions of and detailed references to state authority with respect to:

- Prescription drug monitoring requirements;
- Opioid-related licensure, disciplinary, and other requirements for physicians, physician assistants, and advanced practice registered nurses (APRNs), including nurse practitioners (NPs) and certified registered nurse anesthetists (CRNAs);
- Related state Medicaid requirements;
- Related state workers' compensation requirements; and
- Additional state-level initiatives and resources designed to combat the opioid crisis.

"This resource provides an excellent summary of the opioid-prescribing laws across the country on a state-by-state basis. We're unaware of any other publication covering the same material in a similar manner," comments Kathryn E. Hickner, Chair, AHLA Physician Organizations Practice Group, and Partner, Kohrman Jackson & Krantz LLP. "We've been so delighted by the positive feedback we have received from attorneys and other health law professionals who have used this book in their daily practices to better serve their clients."

Opioid Prescribing - An AHLA 50 State Survey with Summaries and Links is available to order through [AHLA's bookstore](#) for both members of AHLA and the broader health law professionals community.

For a high-resolution image of the book cover, editor/author headshots, or interview inquiries, please contact AHLA.

###

AHLA sincerely thanks the [Physician Organizations Practice Group](#) for creating this key resource.

About AHLA:

The mission of AHLA is to provide a collegial forum for interaction and information exchange to enable its members to serve their clients more effectively; to produce the highest quality non-partisan educational programs, products, and services concerning health law issues; and to serve as a public resource on selected health care legal issues.
